TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

(L. S.)

To the Inhabitants of the Town of Greenland in the County of Rockingham in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Central School in said Greenland on Tuesday, the eleventh day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To see what sum of money the town will vote to raise and appropriate for the repair of highways and bridges.

4. To see if the town will vote to accept State Aid for the construction of Class V roads and raise and appropriate the sum of \$110.61 for said purpose.

5. To see what sum the town will vote to raise and appropriate for the support of the Weeks Public Library.

6. To see if the voters of the town will authorize the Selectmen to borrow money on short term notes in anticipation of taxes.

7. To see if the town will vote to raise and appropriate the sum of \$900.00 for a War Memorial.

8. To see what sum the town will vote to raise and appropriate for the observance of Memorial Day.

9. To see if the town will vote to raise and appropriate for the issuance and distribution of printed matter, calling attention to the resources and natural advantages of the town, in co-operation with the other towns coordinated in the Seacoast Regional Development Association the sum of \$60.

10. To see if the town will vote to use the Post War Fund for the purpose for which it was set aside and to name agents for spending the same.

11. To see if the town will vote to raise and appropriate the sum of \$500.00 to spray the trees for the extermination of moths and elm tree beetles.

12. To see if the town will vote to raise and appropriate the sum of \$500.00 for a fire proof vault or safe for the keeping of valuable town records.

13. To see if the town will vote to sell their rights on the old brick school house (known as the "Veterans' Hall") to the Greenland Veterans' Improvement Association at a sum to be determined at this meeting. (Inserted by petition.)

14. To transact any other business which may legally come before this meeting.

Given under our hands and seal, this twentieth day of February in the year of our Lord nineteen hundred and forty-seven.

GEO. NEWTON WEEKS,
ARTHUR J. SEWALL,
FREDERICK S. BEALS,
Selectmen of Greenland.

A true copy of Warrant—Attest:

GEO. NEWTON WEEKS,
ARTHUR J. SEWALL,
FREDERICK S. BEALS,
Selectmen of Greenland.

LIBRARIAN'S REPORT

The fiftieth annual report of the Weeks Library is submitted to the town.

Several days have been lost to the work of the library during the year, one being the holiday on October 12, one because of repairs and three because of lack of janitor service. For the winter months it is to be open on Tuesdays only for the regular hours two to four and seven to eight-thirty. From time to time collections of books have been sent to the school for the use of the pupils and several collections have been lent to the different grades by the State Library at the request of the Librarian. As usual we have made use of the State Library to give patrons the opportunity of receiving the help which our limited resources cannot supply. Also thru the courtesy of the State, thirty of the newest children's books were on display before Christmas and a few orders were taken for later delivery.

The appearance of the building has been much improved by the re-finishing of the floor which has been very much needed for a long time.

We acknowledge the gift of two volumes by Mrs. Lois Beck and the regular contribution of magazines by Mrs. Beck and Mrs. Thompson, Mrs. Gowen, Mrs. Page and Mrs. Rolston have given occasional copies also. These are much appreciated by readers as we subscribe for only four publications.

Number of volumes purchased	108
Number of volumes given	2
Number lost in circulation	1
Number discarded	111
Circulation for the year	4812
Fiction	3525
Non-Fiction	573
Magazines	714
Juveniles	895

Respectfully submitted,
LILLIAN A. ODELL,
Librarian.

SCHOOL REPORT

SCHOOL WARRANT

To the Inhabitants of the School District in the Town of Greenland qualified to vote in district affairs:

You are hereby notified to meet at the Central School in said district on the 11th day of March, 1947, immediately upon the adjournment of the town meeting to act upon the following subjects:

1. To choose a Moderator for the coming year
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the District.
6. To hear the reports of Agents, Auditors, Committees, or officers heretofore chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this Warrant.
8. To see if the District will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of statutory obligations of the District, as determined by the School Board in its annual report.

9. To see if the District will authorize the School Board to make a contract covering the insulation of the ceilings of the school building in an amount not to exceed \$750.; to be paid annually out of subsequent fuel savings, using the sum of \$500. as a basis for fuel cost on which to determine the annual savings, plus interest at the rate of 3 percent per annum on the principal, payable from the date of completion of the insulation; and to sign the necessary notes.

10. To transact such other business as may legally come before this meeting.

Given under our hands at said Greenland this 17th day of February, 1947.

MARGARET S. SWEETSER
WILLARD PAGE,
CHRISTOPHER W. HARTFORD,

School Board of Greenland, N. H.

A true copy of Warrant—Attest:

MARGARET S. SWEETSER

CHRISTOPHER W. HARTFORD,

School Board of Greenland, N. H.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Greenland, New Hampshire:

I hereby submit my second annual report as Superintendent of Schools.

The post-war era is presenting many problems, one of the most paramount being a new appraisal of public education. The public is making new demands of the schools; and the schools are making new demands of the public. This is a healthy and encouraging situation, but one which we must all face realistically. It is important that the modern elementary school program meet effectively the needs of all the children. Emphasis upon the three R's should not be lessened, but this basic material should be taught in such a manner as to function in everyday living. In addition to training in the three R's, the school should teach children to understand their environment, their local community, and the problems which they face as a part of human society. Provision should be made for an effective program of health, music and art education. There should also be opportunity for wide reading and use of visual aids.

If the schools are to fulfill these objectives, those responsible for the educational program must have the support and understanding of the public. It is essential that funds be secured from either local or State sources so that increased costs of education may be met without curtailing the educational program. It is likewise desirable to have a closer relationship between the public and the schools. Citizens and parents should take time to visit more frequently and to discuss mutual problems with the teachers in order that there may be the fullest cooperation between the home and the school.

The school year 1946-47 opened with two new teachers, Mr. Joseph Grilli and Mrs. Dorothy Berry. Mr. Grilli, as principal, has been extremely successful in building up the morale and spirit of the school, and in securing the cooperation and support of the teachers. Mrs. Blakeney, Mrs. Berry and Mrs. Mudgett are each doing effective teaching in their respective grades. Greenland is very fortunate in having a staff of well qualified teachers in this period of definite shortage. It is predicted that the supply of elementary teachers will grow progressively acute for at least five years. Only by paying salaries which will induce capable people into the profession, can we hope to have a supply of qualified teachers to meet the demands of New Hampshire communities.

It is encouraging to see greater use being made of the playground facilities. Supervised play activities both in and out of school hours are an important part of the educational program in any community.

May I call your attention to the statistical tables which follow this report. They should be of general interest.

In conclusion, I wish to thank the citizens of Greenland, the members of the School Board and the teachers for their assistance and cooperation throughout the past year.

Respectfully submitted,

AURA W. COLEMAN,

Superintendent of Supervisory Union No. 16

Greenland, N. H., January 31, 1947.

REPORT OF THE SCHOOL PRINCIPAL

To: The School Board of Greenland, New Hampshire.

I take pleasure in submitting my annual report as principal of the Greenland Central School, the first in the series.

As in the past, Mr. Coleman, the Superintendent of Supervisory Union Number Sixteen, will undoubtedly present statistical tables and information of the Greenland School and its standing with other schools. These reports will show aptly the details of the business affairs of our school. I am going to endeavor, therefore, to present to you some of the high-lights of the current school year.

The beginning of the school year for 1946 brought several changes in the teaching staff of our school. Mrs. Blakeney resumed her teaching duties with a change from the third and fourth grades to the first and second grades. Mrs. Berry, a newcomer, but a teacher of many years' experience, took over the duties of the third and fourth grades. Mrs. Mudgett, an experienced teacher of the school became home room teacher in the fifth and sixth grades, and shared her teaching duties with Mr. Grilli, a newcomer to the Greenland School faculty, who assumed the duties of principal and home room teacher of the seventh and eighth grades. Mrs. Mudgett has been teaching English and Mathematics in the four upper grades, and Mr. Grilli the History and Geography. The arrangement is resulting in more effective instruction of all pupils in these subjects.

A Manual Training course in woodwork has once again been established in the school curriculum. This, I feel, is a progressive step towards better education for it better prepares our seventh and eighth grade boys to further pursue the Industrial Arts courses in schools of higher learning. Some boys are naturally inclined towards work of this na-

ture and our course, while elementary, helps them become more experienced in the field. Some boys leave school at the end of the eighth year and consequently this is the only formal training they receive in woodwork before they enter an adult world. I hope that the course will continue to be given in the coming school year.

The Home Economics course in cooking and sewing, under the able leadership of Miss Thaxter, has maintained its high order of accomplishment, considering some of the handicaps and problems the department has had to cope with. Miss Thaxter's skillful teaching, plus her practical experience and personality have, as in the past, produced fine results.

Mrs. Foster, the Music instructor, a newcomer to our school, should be highly commended for her fine work in this department. Her vibrant personality and enthusiasm plus the inter-mingling of folk dances and games with classroom music have produced a greater appreciation for music by the pupils of our school.

I hardly need to mention the fine work carried on by our school nurse, Mrs. Sheehy. She has by her many years of faithful service become established part of our institution; and by her effective work has kept the health of our boys and girls at its best. All pupils should have healthy and well nourished bodies as well as well-directed minds; this phase of school life is ably taken care of by Mrs. Sheehy.

Two new clubs have been founded in our school; the Newspaper Club and the Dramatic club. These two clubs are open to the four upper grades, each pupil selecting his choice. The newspaper club with Mrs. Mudgett as its adviser brings the news and happenings of the school to the parents and the public, and helps further the literary aspects of the boys and girls. The Dramatic club with Mr. Grilli as its adviser endeavors to create an outlet for the creative, dramatic and artistic talents of the youngsters.

Greenland is fortunate in having a school building that is a real community center. Its plan of structure, location and general convenience all help make it so, and it seems to serve equally well both for school purposes and for its use by juvenile and adult organizations. Thanks to your constant care and that of a very efficient janitor, the building is in excellent condition, except for one or two repairs which I hope will be remedied in the not too distant future. Mr. Sturtevant, the school janitor, is to be highly commended for his upkeep and care of the building.

To promote a greater measure of safety for the boys and girls and for others who make use of the building, there have been installed this year a set of carbon dioxide fire extinguishers. These fire extinguishers have been placed in prominent positions readily accessible in case of an emergency. They are a decided advantage over the smaller but out-moded extinguishers which they replace. To carry out the safety program, the school has had several fire drills to familiarize the students with the nearest exits and the procedure in case of fire. Each teacher has also been responsible to more fully explain to the pupils the safety program.

Few towns the size of Greenland have so useful and inviting a playground as ours. It would be of great advantage to Greenland boys and girls of high school age if more organized use could be made of our playground and equipment. This year the school in conjunction with the school board has added several recreational facilities for our boys and girls. A basketball court has been made on our playground, complete with permanent backboards, rims and nets. A volley ball court has been set up and equipment bought for it. Numerous pieces of equipment such as baseballs, softballs, volley ball, basketball and soccer ball have been added to our athletic equipment. The Newspaper Club has procured several rubber air-inflated utility balls for the lower grades. For indoor recreation numerous games have been donated to the school, quite an addition to our extensive selection. Two ping pong sets have been procured and a

ping pong table donated to the school by the Greenland Veterans. Numerous teen-age boys and girls of the community who are not members of the school have made use of our equipment and facilities. It is my hope that a greater number will continue to do so, for the leisure time needs and activities of the boys and girls of our community is of paramount importance and is the concern of all. The use of the equipment and facilities is heartily approved as long as it is used with care and a few simple rules abided by.

Since the beginning of the school year the teachers of the Greenland School have cooperated in several lines of special endeavor, in and out of the classroom. Without neglecting in any way the practices which have been found desirable, we have tried to place special emphasis on diction and oral reading, more full, conclusive and decisive answers to questions, better handwriting, a more extensive vocabulary, a greater interest in community and school affairs, a greater attempt at self expression, better manners and morale, co-operation in general and good citizenship. The teachers, as always, are giving their utmost efforts to making a constantly improved school and better rounded individuals. They and the superintendent are continuously striving to ferret out the weak points of the school procedure and try individually and collectively to strengthen the weak places in our system.

I was very much impressed with the large attendance of parents and citizens who visited the school and attended school functions during the year. This type of relationship between school and parents is greatly desired for often it helps to solve the problems of our boys and girls. We of the school faculty feel grateful that such a keen interest is shown in our school activities, and I sincerely hope that those parents and citizens who visited school and saw pupils and teachers at work will continue to do so, and that others will join their ranks in bringing a closer relationship amongst parents, pupils and teachers.

I wish, in closing to register my appreciation to you for your hearty interest in the professional as well as the material side of the school. A vote of thanks for the splendid cooperation, advice, time and effort that you have contributed unsparingly to the well-being and smooth functioning of our school. I am sure Mr. Coleman, Superintendent of Supervisory Union Number Sixteen, and my co-teachers would desire to be included in this statement and with me pledge our earnest efforts to maintain a happy and efficient school in Greenland.

Respectfully submitted,

JOSEPH H. GRILLI, Principal

Greenland Central School.

Greenland, New Hampshire

January 31, 1947

REPORT OF THE SCHOOL NURSE

To the School Board of Greenland, N. H.

Following is the report of the School Nurse from January 1946 to January 1947:

At the beginning of the year first aid supplies are placed in the school to be used for the pupils.

During the early autumn all children are weighed and measured and given tests for vision and hearing. They are weighed and measured again in the winter and spring. All weights and heights are recorded in the classroom. Frequent classroom inspection are made of hair and skin.

All children are examined for physical defects such as defective teeth, diseased tonsils, underweight, posture and orthopedic.

Following is the report of the annual physical examination:

No. of pupils examined	101		
No. underweight (10%)	8		
No. with defective vision	12	corrected	12
No. with defective teeth	53	corrected	11
No. with defective tonsils	11	corrected	6
No. with adenoids	3	corrected	3
No. with enlarged glands	4	corrected	1
Orthopedic	1	under treatment	1

All children are vaccinated and 92 are inoculated against diphtheria. Two children were taken to a physician for examination by the nurse.

Bi-weekly visits are made to the school. Necessary home

visits are made to school children for corrective work or sickness.

At this time I would like to express my appreciation for the cooperation shown me by Mr. Coleman, the School Board, teachers and parents.

Respectfully submitted,

ELOISE B. SHEEHY, R. N.

HELP YOUR FOREST FIRE WARDEN PREVENT FIRES — IT PAYS!

Prevention is one of the most important phases of all fire effort. This is particularly true of forest fire control work. Preventing forest fires preserves valuable forest growth and other property, conserves man power and permits their use in productive channels, saves taxpayers' money and conserves fire fighting equipment.

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden who heads a local organization set up primarily for the security of your community's forest property. Appointed by the State Forester, upon recommendation of the Selectmen, he is charged by law with the responsibility of local administration of forest fire laws, fire prevention and suppression. In his work he is aided by deputy forest fire wardens who, in emergency, may assume his power and authority. The warden is guided in his work by instructions received from the State Forester and by the District Fire Chief who represents the State Forester.

To properly fulfill his mission, the warden needs the generous and understanding cooperation of the public at large. He attempts to secure this cooperation by the posting of caution notices, news items and by word of mouth, always carefully explaining the necessity of restrictions imposed. In the matter of giving cooperation however, the public often fails. The record shows that an average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year. Analysis of fire causes reveal the fact that more than 98 percent of all forest fires, are, consistently, the result of human carelessness and are preventable.

The elimination of human causes from the forest fire problem is the answer. This is not as difficult of accomplishment as it might appear at first glance. Let each one who reads this —

1. Use ordinary common sense with fire in and near woodland.
 2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.
 3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.
 4. Cooperate with and assist the warden and urge others to do so.
 5. HELP YOUR FOREST FIRE WARDEN PREVENT FIRES —
- his efforts are only as effective as is the cooperation you give him!

CHARLES F. MARDEN,

Forest Fire Warden.
